# PREMIUM SANITARYWARE

**Venice C/C Comfort Height Pan (Rimless)**

**Florence C/C Pan (Rimless)**

**Rimless Pan Flushing System**

Rimless pans have become essential in every bathroom offering greater hygienic and ease of cleaning. The traditional pans had a lipped and in-accessible rim where bacteria and gunk could accumulate easily. With rim-less pans you can see how the flushing works leaving nowhere for bacteria to hide. Our Premium range of Sanitaryware also offers superior glaze and contemporary slim-line seats.

# PREMIUM SANITARYWARE

# WET-ROOM DRAINS

Our revolutionary wet-room drains are a first in the UK. Built-in non-return valve only opens when there is any fluid draining through it. This means the water-less trap will leave your bathroom smell-free and provide automatic pest control. The non-return valve is accessible through the drain grid for servicing. Also comes with a hair-trap that sits on top of the valve. Functions very well in heated floors where normally the heat would dry out water in the trap; with this technology you will always come back to fresh bathrooms from your holidays. Shallow height of the drain allows easy installation in tight places.

## TYPE 1

### FRESH BATHROOM ALL YEAR ROUND

1. Self-closing floor drain with anti-return valve that remains sealed until you shower / drain.
2. ANTI-PEST

### EASY INSTALLATION

1. Fully serviceable after installation. You can install the floor drain body independently.
2. The anti-return valve can be installed after masonry work is finished avoiding obstructions.
3. Multiuse—Bathrooms, Kitchen, Porch etc

### RELIABILITY

1. Anti-return valve life span, 10000 cycles
2. Stainless Steel Grill
3. Tested to European Standards UNE-EN 1253 - 1, UNE-EN 1253 - 2 (PARTIAL TESTS)

### OTHER CHARACTERISTICS

1. Flow Rate: 24l/min
2. Antitheft Cover system
3. Ready to glue to 40mm.

## TYPE 2

### FRESH BATHROOM ALL YEAR ROUND

1. Suitable where under floor heating systems are installed (when the surface heats up, in traditional siphon systems, water evaporates and causes bad smell).

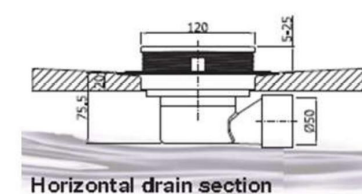

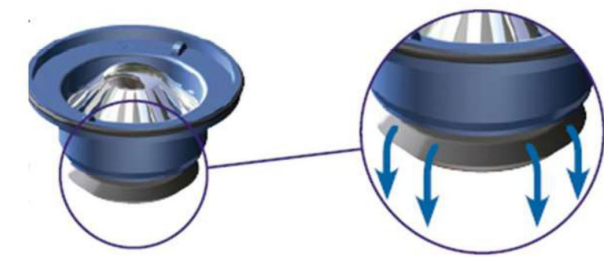

### SHORT HEIGHT AND HIGH FLOW

1. Total height from surface—75mm.
2. Suitable for bathroom renovation and bathrooms without architectonic barriers.
3. Flow Rate: 45 l/min. (horizontal outlet)
4. Comes with 50mm Coupler

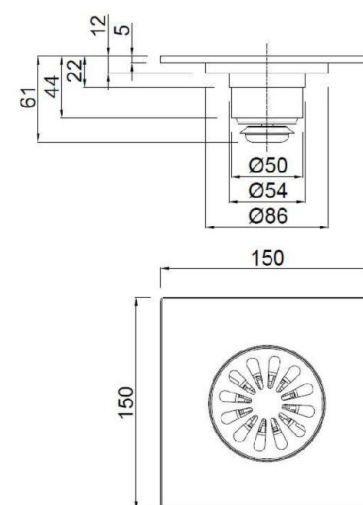

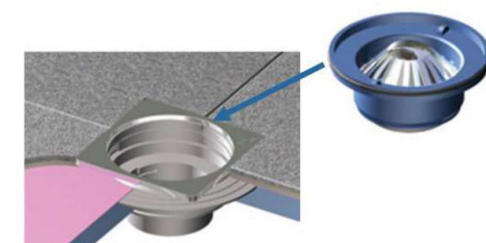

### EASY INSTALLATION AND SERVICE

1. Disassembled anti-return valve. You can install the floor drain body independent of the anti return valve.
2. The anti-return valve can be installed after masonry work is finished avoiding obstructions.
3. Includes orientable elbow ready to glue to 50mm.
4. Height adjustable, stainless steel grid to lay reduced flooring: from 5mm to 25mm (marble, stones or heated floors).

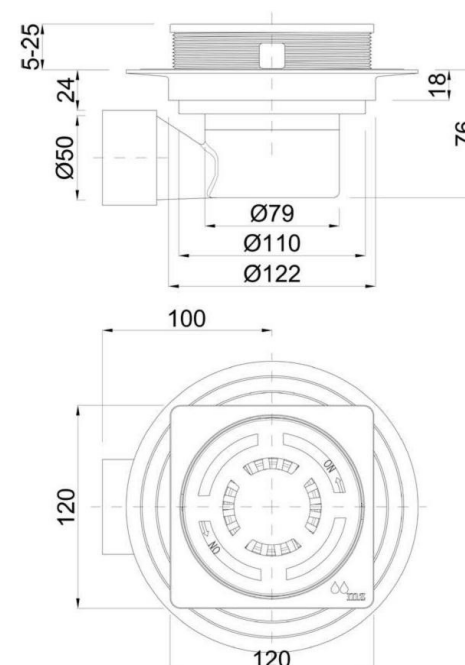

### RELIABILITY

1. Anti-return valve life span, 10000 cycles
2. Stainless Steel Grill

**TYPE1 £73.50**  
15x15 Aitstop wetroom drain with 40mm coupler and elbow (Flow rate 24 ltr/min) Includes Elbow: 6000002599 & Coupler: STRG001

**TYPE1 includes:**  
181800001, 600002599, STRG001

**TYPE2 £82.50**  
12x12 Aitstop wetroom drain with 50mm coupler (Flow rate 45 ltr/min) Includes Coupler: STRG002

**TYPE2 includes:**  
181200001, STRG002

# DOUCHE / BIDET SEAT

Our Deespray Douche/ Bidet seat turns any toilet into a bidet. It's built in anti-bacterial water-jet can be flicked on from the side and retracts when you are done. The pack comes with a T-Point Valve and hose which allows the main feed be to diverted to the seat.

Using water to clean yourself has multiple health benefits too. Water jets help relieve constipation and improve bowel-movement. It's also recommended to patients suffering from haemorrhoids.

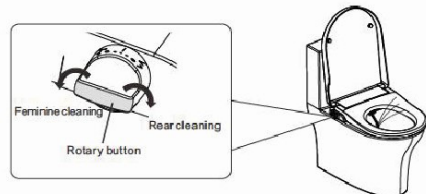

-  ANTIBACTERIAL SPRAY ROD
-  KNOB DESIGN
-  SOFT CLOSE
-  ELECTRICITY-FREE
-  MOUNTING ADJUSTMENT 135-165MM

Desire Deespray Self-Cleaning Douche/Bidet Spray WC seat D Shape.
